CNG Dispenser – Double Nozzle

High-pressure CNG refuelling dispenser · calibrated metering

NMDPRA-compliant | Certified installation technicians | Supplied & installed by MEGA-TEC | Nationwide support

Built for accurate, dependable CNG refuelling, dispensing gas to vehicles at up to 25 MPa with tight ± 0.5% accuracy, so every kilogram is measured fairly and sold precisely. It serves two vehicles at once, keeping your CNG forecourt moving as demand grows. A reliable choice for stations entering Nigeria's growing CNG market, installed and commissioned by MEGA-TEC's certified technicians.

Gas	CNG

TECHNICAL PARAMETERS		OPERATING CONDITIONS	
Nozzle (gun)	2	**Flow range**	2 to 30 kg/min
Hose	2	**Measurement accuracy**	± 0.5%
Display	4	**Max working pressure**	25 MPa
Structure	Two guns, three wires	**Ambient temperature**	-30°C to +55°C
Metering	Calibrated, custody-transfer grade	**Power supply**	220V ± 15%, 50Hz ± 1Hz
		Rated power	Under 200W

SPECIFICATIONS

Single measurement range	0 – 9999.99 kg (L, Nm³)
Cumulative range	Up to 99,999,999.99 kg (L, Nm³)
Unit price preset range	0.01 – 99.99 per m³
Density preset range	0.0001 – 0.9999
Pull-off valve force	≤ 400N at 20 MPa
Compliance	NMDPRA-compliant installation
