CNG Offloading Dispenser

High-flow offloading unit · transfers trucked-in gas into station storage

NMDPRA-compliant	Certified installation technicians	Supplied & installed by MEGA-TEC	Nationwide support

The Offloading Dispenser does a different job from a refuelling unit: it transfers high-pressure CNG from delivery trailers into your station's on-site storage. Its higher flow range, up to 70 kg/min, is built for fast bulk transfer, making it an essential part of any daughter-station setup that receives gas by road. Supplied and installed by MEGA-TEC.

Gas	CNG

TECHNICAL PARAMETERS		OPERATING CONDITIONS	
Nozzle (gun)	1	**Flow range**	1 to 70 kg/min
Structure	Single gun	**Measurement accuracy**	± 1%
Function	Bulk offloading to storage	**Max working pressure**	25 MPa
