LPG Dispenser – Single Nozzle

Single-nozzle LPG dispenser for retail gas outlets

- NMDPRA-compliant
- Calibrated before delivery
- Assembled & tested in Nigeria
- Spare parts always available

Built for accurate, safe retail LPG dispensing. It measures every kilogram precisely at ± 0.3%, protecting both your margin and your customers' trust, with an air separator for clean, reliable dispensing. Very low noise in operation, 7-year memory with battery backup, calibrated before delivery and installed by MEGA-TEC's certified technicians.

Gas	LPG
