CNG Solutions – Range Comparison

Compare CNG dispensers, the daughter station and storage tubes at a glance

CNG DISPENSERS

Shared across this group: Refilling dispensers: 2–30 kg/min · ±0.5% accuracy · up to 25 MPa. The three configurations differ by nozzle count and body design only. The Offloading Dispenser is a different product with its own flow and accuracy figures, shown separately. 1-year warranty on the refilling dispensers.

Photo	Product	Key specifications
	**CNG Dispenser – Single Nozzle**	Nozzle: Single (serves one vehicle at a time)
	**CNG Dispenser – Double Nozzle**	Nozzle: Double (serves two vehicles at once)
	**CNG Dispenser – Double Nozzle (2)**	Nozzle: Double, alternative body design, same performance. Choose based on your station's layout and look.
MEGA-TEC	**CNG Offloading Dispenser**	Flow: 1–70 kg/min · Accuracy: ±1% For bulk transfer into station storage, not customer refuelling Comes with a warranty

CNG DAUGHTER STATION & STORAGE

Photo	Product & key specifications
	**CNG Daughter Station** Compressor: 1200 Nm³/h, 380V · Cylinder group: 180L × 36 (6,480L) Complete pipeline-independent system: receives, stores and dispenses Comes with a warranty
	**CNG Storage Tubes (40ft)** Capacity: up to 7,800 Nm³ · Working pressure: 20–25 MPa 20-year working life Comes with a warranty
